

# Nagano Prefecture's Effort on Environmental Energy Policy

Environmental Energy Initiative at Nagano Prefecture

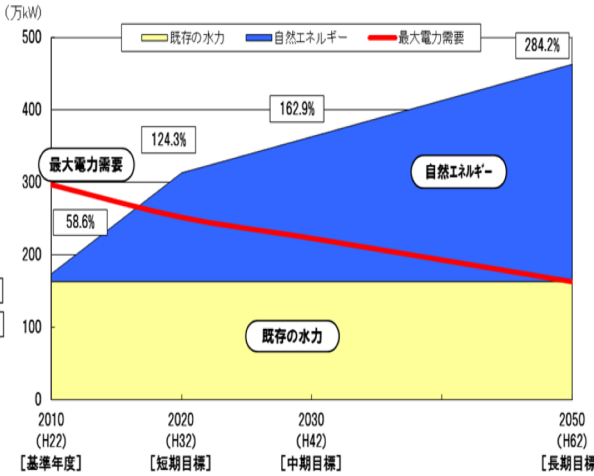

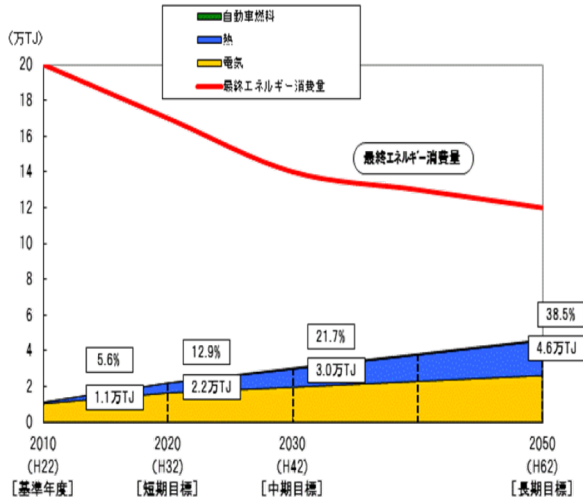

【Planning Period】 FY2013(H25)~FY2020(H32) [8 years]

【Basic Objectives】 Establish a society with sustainable, low-carbon environmental energy.

**Economy/Society with keep reducing energy consumption and GHG emission in growing economy.**

**SDGs** 1) Environment (reduce GHG emission), 2) Economy (shift from financial outflow to intraregional investment), 3) Society (local dynamics and sources of creation)

Major numerical goal – 2 cases of energy self-sufficiency rate

Package for energy saving policy

- 事業活動温暖化対策計画書制度
- エネルギー供給温暖化対策計画書制度
- 事業者間の連携・協力促進
- 建築物環境エネルギー性能検討制度
- 家庭の省エネサポート制度
- 信州省エネ大作戦

Package for renewable energy policy

- 自然エネルギー信州ネットによる官民連携
- 県有施設の屋根貸しによる地域主導型ソーシャルビジネス支援
- 計画策定からハード設置までを体系的にサポートする補助制度
- 小水力キャラバン隊など

~ New plan integrated countermeasures against global warming and environmental energy policy ~

◆2017(H29) September: Nagano hosted first Asian “International conference of local renewable energy”.

◆2018 (H30) June: Nagano was selected to one of the “SDGs Future City” that takes leading role for accomplishing SDGs objectives.

## Package for energy saving policy

### ○事業活動温暖化対策計画書制度

Planning document system on business activity on countermeasures against global warming

### ○エネルギー供給温暖化対策計画書制度

Planning document system on energy supply on countermeasures against global warming.

### ○事業者間の連携・協力促進

Promote coordination and cooperation among businesses.

### ○建築物環境エネルギー性能検討制度

Performance investigation system on environmental energy of buildings.

### ○家庭の省エネサポート制度

Support system for household energy saving.

### ○信州省エネ大作戦

Mission on energy saving in Shinshu.

## Package for renewable energy policy

### ○自然エネルギー信州ネットによる官民連携

Private-public initiative promoted by the Renewable Energy Shinshu Net.

### ○県有施設の屋根貸しによる地域主導型ソーシャルビジネス支援

Local-driven social business support by leasing prefectural building roof.

### ○計画策定からハード設置までを体系的にサポートする補助制度

Subsidiary system to support various activities from making plan to setting hardware in systematic manner.

### ○小水力キャラバン隊など

Small hydroelectric generation caravan, etc.
